SUMMARY

Python/Django Full Stack Developer (B.Tech CSE 2026, 8.05 CGPA) with hands-on experience in Django, SQL, REST APIs, HTML, CSS, JavaScript, and React. Built **Placera**, a placement management system with user authentication, resume uploads, and full CRUD on a Django ORM and SQLite backend. Currently completing Python Full Stack training at QSpiders. Seeking a **Python Developer** role to build clean, maintainable backend applications.

SKILLS

Languages: Python, JavaScript (ES6), SQL, HTML5, CSS3

Backend: Django, Django ORM, MVT Architecture, Authentication, Forms and Validation, REST APIs (in training)

Frontend: React.js, Responsive Design

Databases: SQLite, SQL

Tools: Git, GitHub, VS Code

Concepts: OOP, CRUD, File Handling, Debugging

PROJECTS

Placera – Placement Tracking & Management System

Tech: Python, Django, HTML, CSS, JavaScript, SQLite

- Built a full-stack web application that centralizes student placement management, letting users create profiles, maintain placement information, and upload resumes for job applications.
- Developed the backend with Python and Django using MVT architecture for structured, maintainable code.
- Implemented user registration, login/logout, authentication, and profile management.
- Built a resume upload and management system using Django's file-handling capabilities.
- Implemented CRUD operations to create, view, update, and delete application data.
- Integrated SQLite with Django ORM for reliable storage and retrieval of user and placement data.
- Designed a responsive, user-friendly frontend with HTML, CSS, and JavaScript, and connected the full workflow through Django URL routing, views, templates, forms, validation, and models.

EXPERIENCE

Web Development Intern | YHills (Remote)

June 2024 – August 2024

- Built a responsive Pizza Store web page with React, HTML5, CSS3, and JavaScript, using reusable components that adapt to different screen sizes.
- Designed a user-friendly interface by organizing page content, navigation, and visual interactions as React components.
- Connected presentation elements with interactive behavior and tested the overall page flow in the browser.
- Used Git and GitHub to version and publish project code.

TRAINING

Python Full Stack Development | QSpiders, Hyderabad

2026 (ongoing)

- Learning Python, Django, SQL, REST APIs, HTML, CSS, and JavaScript, and applying them to full-stack web applications.
- Building Django applications using models, views, templates, and the Django ORM.

EDUCATION

B.Tech, Computer Science & Engineering | Synergy Institute of Engineering and Technology, Dhenkanal

2026

CGPA: 8.05 | Coursework: Python Programming, SQL & Database Systems, Web Development, Software Engineering
12th: 76.33% (2022) | 10th: 77.33% (2020)

CERTIFICATIONS

- Web Development Internship Certificate, YHills, 2024
- Python Full Stack Development, QSpiders (in progress, expected 2026)
