SUMMARY

Aspiring Python Full Stack Developer with a solid foundation in Python, SQL, HTML, CSS, JavaScript, Django, React, MySQL, Git, and GitHub. Hands-on internship experience includes building a responsive Pizza Store web page, creating interactive frontend components, and connecting page functionality with user needs in mind. Brings a structured approach to problem-solving, steady technical curiosity, and genuine interest in writing clear, maintainable code. Comfortable learning through feedback, contributing within a team, and taking ownership of assigned tasks. Ready to join a supportive development or operations team and continue growing across technology, data analysis, and client onboarding processes.

EDUCATION

B.Tech in Computer Science and Engineering (CSE) | 2026
Synergy Institute of Engineering and Technology | GPA: 8.05
Dhenkanal, Odisha, India
Coursework: Python Programming, SQL & Database Systems, Web Development, Software Engineering

Higher Secondary Education (12th) | [2022]
Binayak higher secondary education Rantlei Angul | 76.33%
Odisha, India

Secondary Education (10th) | [2020]
Saraswati vidya mandir Fakirmohan nagar baramundar bhubaneswar | 77.33%
Odisha, India

TECHNICAL SKILLS

- **Programming Languages:** Python, basic understanding JavaScript, SQL
- **Frontend Technologies:** HTML, CSS
- **Backend Frameworks:** Basic understanding Django, Python, Web Applications
- **Database Systems:** SQL
- **Version Control:** Git, GitHub
- **Web Design:** Responsive Design, User Interfaces, Page Layout
- **Software Engineering:** Web Development, Application Structure, Maintainable Code
- **Professional Skills:** Communication, Time Management, Decision Making, Problem Solving

EXPERIENCE

Web Development Intern | Internship June 2024 - August 2024
YHills Remote

Supported development of a responsive customer-facing Pizza Store web experience in a remote internship environment. Focused on translating a food-ordering concept into an interactive frontend using component-based design and modern web technologies.

- Developed a responsive Pizza Store web page with HTML, CSS, JavaScript, and React, structuring reusable frontend components for different screen sizes.
- Designed a user-friendly interface by organizing page content, navigation elements, and visual interactions in React.
- Implemented frontend components and webpage functionality in React, connecting presentation elements with interactive behavior and validating the overall page flow.

TRAINING

Python Full Stack Development – QSpiders, Punjagutta, Hyderabad
Currently Pursuing | 2026

- Learning Python, Django, HTML, CSS, JavaScript, SQL, and REST APIs.
- Developing full-stack web applications using Python and Django.

PROJECTS

Course Selling Application | MERN Stack
Tech Stack: MongoDB, Express.js, React.js, Node.js, CSS, JWT, Razorpay

- Developed a full-stack online course-selling platform using the MERN stack with separate user and administrator functions.
- Implemented JWT authentication, course browsing, enrollment, purchase, and administrator CRUD operations.
- Integrated online payment processing and implemented order and enrollment management for purchased courses.
- Designed a responsive interface using React.js and Tailwind CSS, with RESTful APIs for frontend-backend communication.

LEADERSHIP & AWARDS

- Earned an 8.05 CGPA in B.Tech Computer Science and Engineering through consistent academic effort.
- Completed a supervised web-development internship at YHills, contributing React work for a responsive Pizza Store page.

CERTIFICATIONS

Python Programming Certificate 2025
Web Development Certificate 2024
